If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. STATEMENT ESTABLISHING UNINTENTIONAL DELAY

When Applicant filed a Request for Continued Examination (RCE) on July 9, 2007, in response to a Final Office mailed January 11 2007 in U.S. Patent Application Serial No. 10/669,118, Applicant requested a suspension of action on the application under 37 CFR 1.103(c) for a period of two months. The appropriate box on PTO Form SB/30 was checked, and the fee payment was authorized (copy of Form SB/30 enclosed). The undersigned intended to provide an amendment in this case during this time period, and did not appreciate that at the time of the filing of the RCE, a full submission including such amendment would need to be filed at that time, and could not be delayed during this two-month period. The undersigned apologizes for this oversight, and requests that this Petition be granted, such that Applicant can obtain the benefit of a patent for its invention. The undersigned was not aware of this error until receiving a communication from the Patent Office on August 20, 2007 (the receipt date of the Notice of Improper Request for RCE).
